WHAT PRODUCT IS IT?

TYPE

Investment shares B (IAB) issued by the investment fund, specifically fund of qualified investors, in the form of public limited company with variable capital, ARETE INDUSTRIAL SICAV a.s. It is a participation security issued by an investment Fund which is (i) an alternative investment fund within the meaning of Directive 2011/61/EU of the European Parliament and of the Council (hereinafter referred to as the "AIFMD"), (ii) a fund of qualified investors within the meaning of Act No. 240/2013 Coll., on investment companies and investment funds (hereinafter referred to as the "ZISIF") and (iii) a product that promotes environmental and social characteristics within the meaning of Article 8 of Regulation (EU) 2019/2088 of the European Parliament and of the Council on the disclosure of information related to sustainability in the financial services sector ("SFDR").

OBJECTIVES

The Fund's investment strategy focuses on investments in income-producing real estate such as logistics and industrial complexes. The Fund's primary investment regions are the Czech Republic and the Slovak Republic, supplemented by Central Europe. The Fund's main source of income is rental income and the growth in the value of acquired properties over time. Properties are acquired using loan financing. This practice increases the potential yield of the product, but at the same time the product carries a higher risk of loss of the invested funds. The investor in the product participates in the return and loss of the Fund on a pro rata basis with all other investors in the Fund. However, in the event of a loss of the Fund, the investor participates up to the maximum amount of its investment. You can find more detailed information in the Fund's Statute and Articles of Association. Given the Fund's investment strategy and the nature of the assets in which it invests, sustainability risks are not included in the Fund's investment decisions as these are not perceived to be relevant to the Fund.

The Fund is a financial product according to Article 8 SFDR. In its investment activities, it thus promotes certain environmental and social characteristics, but its main goal are not sustainable investments. Fulfillment of the established environmental and social characteristics is monitored through the determination of qualitative and quantitative ESG indicators for each environmental and social area as well as for the area of proper administration and management (governance), the fulfillment of which the Fund takes into account in the analysis of each new investment and continuously supervises their compliance within the entire investment portfolio. More detailed information regarding the promoted environmental and social characteristics and the ESG indicators established for their promotion can be found in the Fund's statute.

FOR WHOM THE PRODUCT IS INTENDED

This product may only be acquired by a qualified investor within the meaning of Section 272(1) of the ZISIF. The product is suitable for investors who intend to supplement their portfolio with alternative types of investments with a relatively conservative risk-return profile, whose performance is generally not dependent on the performance of traditional investment instruments (shares, bonds). The product is particularly suitable for investors who i) accept the limited liquidity of their investment, ii) are able to absorb the loss of their investment up to its full amount, iii) have knowledge and experience of investing in real estate (especially logistics and industrial), and iv) have knowledge and experience of investing through the use of loan financing. The entire profit is reinvested within the Fund activities. The Fund usually does not use its profit to pay dividends, although the general meeting of the Fund has the right to decide, whether the investors are paid their part of the profit.

Depository of the Fund is Komerční banka, a.s., with registered seat at Praha 1, Na Příkopě 33 čp. 969, PSČ 11407, IČO 453 17 054, company registered in the commercial register kept by Municipal court in Prague, insert B 1360.

Further practical information regarding the Fund is available for free in Czech language at: www.winstor.cz/funds.

DURATION OF THE FUND

The Fund was created for an indefinite period. Therefore, there is no maturity date. The Fund can be terminated for reasons stated by the law. The Fund can also be terminated for other reasons, i.e. by the decision of the Fund, which could result in preventing the investor from holding the Investment for the entire recommended period. For that reason, there is no security, nor there is provided any guarantee ensuring that the investor remains in the Fund.

WHAT RISKS AM I TAKING AND WHAT RETURN COULD I ACHIEVE?

SYNTHETIC RISK INDICATOR SRI

The Summary Risk Indicator (SRI) is a guide to the level of risk of this product compared to other products. It shows how likely the product is to lose money due to movements in the markets or because we are unable to pay you. We have ranked this product as Class 6 out of 7, which is the second highest risk class.

This product is included in the relevant risk class due to the absence of a relevant historical data series or the absence of a benchmark with appropriate parameters. Attention to currency risk. This product is denominated in EUR and thus involves currency risk, returns may vary depending on currency fluctuations. This risk is not included in the above indicator. The SRI assumes that the product is retained for a minimum of 6 years. The actual risk may vary significantly if you request to redeem the product early. You may therefore recover less. The investor may have to pay significant additional costs to redeem the product early.

OTHER RISKS NOT TAKEN INTO ACCOUNT IN THE SRI

The risks affecting the value of logistics and industrial real estate, in particular the market and operational risks associated with the operation of logistics and industrial real estate and the risks associated with the financing of logistics and industrial real estate, are fundamental to the return of this product. The Fund also takes into account sustainability risks – i.e. risks representing environmental, social or governance events or situations which, if they occurred, could have an actual or potential material adverse impact on the value of an investment in the Fund.

MAXIMUM POSSIBLE LOSS OF INVESTED CAPITAL

This product does not include any protection against future market performance, so you could lose some or all of your investment. If we are unable to pay you the amount due, you could lose all of your investment.

PERFORMANCE SCENARIOS

This table shows how much you could get back over the presented holding periods according to different scenarios, assuming you invest EUR 100,000. The scenarios below illustrate how your investment could work. You can compare them with scenarios for other products. The scenarios presented are an estimate of future performance based on past evidence of how the value of this investment is changing and are not an accurate indicator. The figures shown include all the costs of the product itself, but may not include all the costs you pay to your adviser or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

One-time investment EUR 100.000 EUR		1 year	3 years	6 years

HOW LONG SHOULD I HOLD THE INVESTMENT? CAN I WITHDRAW MY MONEY EARLY?

Recommended investment period is 6 years, considering the nature of assets, to which the Fund is investing. A request for redemption of investment shares can be submitted at any time. Due to the investment strategy and limited diversification of the portfolio, the value of the product may be subject to significant fluctuations during the investment cycle. At the same time, the value of the underlying assets (or their future returns) may not be sufficiently taken into account in the value of the product for early redemption purposes.

THE PROCEDURE FOR CANCELLING AN INVESTMENT AND WHEN CANCELLATION IS POSSIBLE

A written request for redemption of a product may be delivered i) in person at the registered office of the management company: Winstor investiční společnost a.s., Jungmannova 745/24, Nové Město, 110 00 Praha 1, Czech Republic, ii) by post with a certified signature to the address of the registered office of the management company: Winstor investiční společnost a.s., iii) in other ways regulated by the Fund's Statute.

The Fund's management company shall arrange for the redemption of the product within twenty-four (24) months after the end of the calendar month in which it receives the investor's request for redemption of the investment shares. The product will be redeemed at its current value as announced retrospectively for the period in which the Fund's management company received the request to redeem the investment shares. Request to redeem investment shares can be submitted at any time. However early redemption of the product may have the following impact on the risk-return profile of the product: early redemption may be made at a time of adverse price situation in the market of the underlying assets. In the event of an early redemption, the valuation of the product may be materially different from the valuation in the event of a sale of the underlying assets at the point in time of the Fund's planned investment horizon.
