Positive Impact

We returned to the office after the summer not only rested, but also with the feeling that we had supported meaningful projects together. In August and September, ARETE employees and friends took part in sporting events with a positive impact on society.

We see charitable activities as a key part of the successful functioning of the ARETE group. For us, social responsibility means above all a commitment to active cooperation with our partners and periodic support for those who really need our help.

Charity Race

At the 7th annual **Běh dobré vůle Nadace Olgy Havlové** charity race , more than 800 participants, including two ARETE teams, raised CZK 772,880, which will go to families in critical situations. Our team, which participates for the seventh time, also took an excellent 3rd place among more than 60 teams. Congratulations!

Beach Volleyball

Additionally, our employees took part in the 9th annual **Czech Real Estate Charity Beach Volleyball Tournament**. Thanks to collective efforts, CZK 600,000 was raised to support three non-profit organizations that have a direct positive impact on the lives of people in our regions.

To illustrate, the financial support goes to **CEREBRUM** – Asociace osob po získaném poškození mozku, which is a patient non-profit organization that provides counseling for citizens who have suffered brain damage. Next, The Cystic Fibrosis Club provides ongoing assistance to people diagnosed with cystic fibrosis. **Úsměv nejen pro Kryštofa** foundation helps people with cancer.

4 years of golfing

Last but not least, we organized our traditional golf tournament for our key partners. Here, too, we combined business relationships with the a friendly sport spirit. The fourth annual tournament took place at the Albatross Golf Resort, which was ranked among the prestigious Golf World's TOP 100 Golf Courses in Continental Europe.

For ARETE, social responsibility is not only part of the ESG strategy of our ARETE Industrial fund, but above all a natural commitment to the local communities in which we operate. Charitable activities are therefore an integral part of our operations, and we will continue to actively pursue them as we launch a new ARETE Energy Transition Fund.
